Education

The University of Bournemouth: (2005-2006)	MSc Engineering Product Design <small>First</small>
The University of Portsmouth: (2002-2005)	BSc (Hons.) Computer Aided Product Design <small>First</small>
Guildford College: (2000-2002)	Advanced GNVQ in Engineering

Experience

2002-2005	Accumulated year of PT product design work Throughout full time study I have been actively working for various companies on small to medium sized projects. This has helped develop strong independent, self-motivating skills and the ability to co-ordinated projects externally with companies.
Summer 2003	Fox International, Essex - Product Designer I worked with a design team developing a wide range of fishing products. Working from design briefs the projects involved concept creation, prototyping through to manufacturing drawings prepared for far-east production.

Skills and Abilities

Problem Solving
Wide range of 3D modelling skills
Wide range of CAD skills
Team working
Proficient Artistic/graphic skills
Metal workshop experience
Competent photographer

Other Achievements

Department of mechanical and design engineering prize,
first class performance
Easily.co.uk August top 10 website placement
